

Sisters and Brothers of Transport Workers Union of America Local 250A:

In July of this year, 2025 one of our members was attacked by a pit bull while performing his duties. SFMTA's Bulletin says operators must secure wheelchairs. What happens when the Agency tells operators what we must do. The pit bull jumped up and bit the operator's face.

Your union leadership is informing members, if you do not feel safe securing a mobility device. (wheelchair) contact TMC for a supervisor's assistance.
